

## **Sin Died Here Lyrics & Chords**

By The Hinsons

### **Verse 1**

(D)That old alter can really talk (G)oh but it won't (D)reveal  
(G)What heaven (D)forgot and what (E)hell never (A)will  
It (D)just sits there in the silence and speaks loud through their (G)tears  
It says their new life (D)began (A)when sin died (D)here

### **Chorus**

(A)Somewhere between that old (G)pulpit and the (D)pew  
A (G)heart so un(D)clean was made (E)spotless brand (A)new  
That (D)old altar is a tombstone and the epitaph's (G)clear  
It says grace fought this (D)battle (A)and sin died (D)here

### **Verse 2**

It just listened as the drunkard staggered in and fell down  
Heard the harlot that come from the dark side of town  
But the sound that's most familiar is when the angels all cheered  
You know the cross won again when sin died here
